

IGNITE 2021

Alice – Digital Equine Art

ARTWORK ONE

Intention:

For my first artwork I intend to create a headshot portrait. I hope to make it as realistic as possible so it represents the photo as much as possible.

Reference Image.

ARTWORK TWO

Intention:

For my second digital I want to create a full body horse and rider. I plan to do this in a less realistic style.

REFLECTION

Overall, I am happy with my work during the ignite project. I really like the first one and I think I met my intention really well. This artwork took a really long time. I also changed my ignite project which didn't help. I don't like the second artwork as much although I am happy with the background. I had wanted to make it a completely unrealistic cartoon kind of style but then it turned out to be more realistic but not realistic enough to properly appear like the photo.

I used Ibis Paint X for these artworks.
